

Winter is Coming!

Get Your PRO2000 Ice Melter Now

Our preseason PRO2000 Ice Melter sale is now on - from now until October 31, purchase our ice melter at last winter's prices! It's never too early to prepare for the snow and ice coming our way. Our Ice Melter is environmentally formulated for safer removal of snow and ice, while protecting vegetation and the surfaces it's being used on. PRO2000 combines the most effective deicing ingredients; creating the desired reaction to initiate deicing and meltdown. PRO2000 when pre-applied prevents snow and ice from bonding to the surface area. As PRO2000 goes to work, its time-released formula stays on the surface area longer, helping to control the freeze/thaw cycle. Call today to order Ice Melter at a special pre-season price!
